

Enhance your talents

A training organisation specialised in aeronautic

Training Center
Organisme de Formation

MEET, DESIGN TRAIN, SHARE, VALIDATE

For more than 15 years AAA Training Center has been at your service.

Our job consists in designing training courses focused and performing while enhancing the skills of your teams. Our international presence and our partnerships with the biggest aircraft manufacturers and temporary work agencies are the proof of our know-how.

As a member of the group AAA, leader in aeronautical production throughout the world for more than 25 years, AAA Training Center ensure a quality service.

By placing people at the heart of the training courses, we design customised training around their skills and needs defined beforehand.

Our objective : Follow your teams to reach success in your project.

engineering

OUR TRAINING

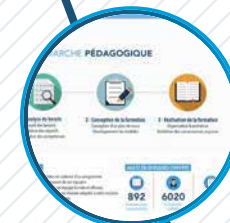

Our expertise: trainings for help and support jobs for production and trainings for associated tools.

BUSINESS TRAININGS

- *ME Process Engineer: manufacturing & assembly with or without (N°299) CQPM*
- *Technical Support: Unique in France*
- *Shopfloor logistic Support*
- *Aeronautical Controllers with or without (N°0186) CQPM*
- *Aeronautical production jobs*
- *Sealing operator*

SPECIFIC TRAININGS

- *Occasional trainer*
- *Technical English (BULATS certificate)*
- *BULATS Centre*
- *Electrical accreditation*
- *Specific IT Tools*

EDUCATIONAL APPROACH

1- Need Analysis

Collecting the needs
Validation of the objectives
Identification of the skills

2 - Designing the training

Design of the lesson plan
Development of the modules

3 - Performing the training

Organization and animation
Knowledge validation

YOUR NEEDS

- Answering the need of the ramp up of a program
- Improving the performances of your teams
- Getting quickly a trained and efficient team
- Having a customised training adapted to your mission
- Developing a new activity.

THE TSS TOOL

Our IT tool TSS (Training Software Simulator) is a software developed by our teams that enables to work by simulating IT tools such as SAP, PDM, Link... Circe or other software/applications following your needs.

The exercises are taken from the real environment of the customer (e.g. SAP) and are done offline.

In order to prepare the trainees to their future working environment, they familiarise themselves with using the mains functions through concrete exercises.

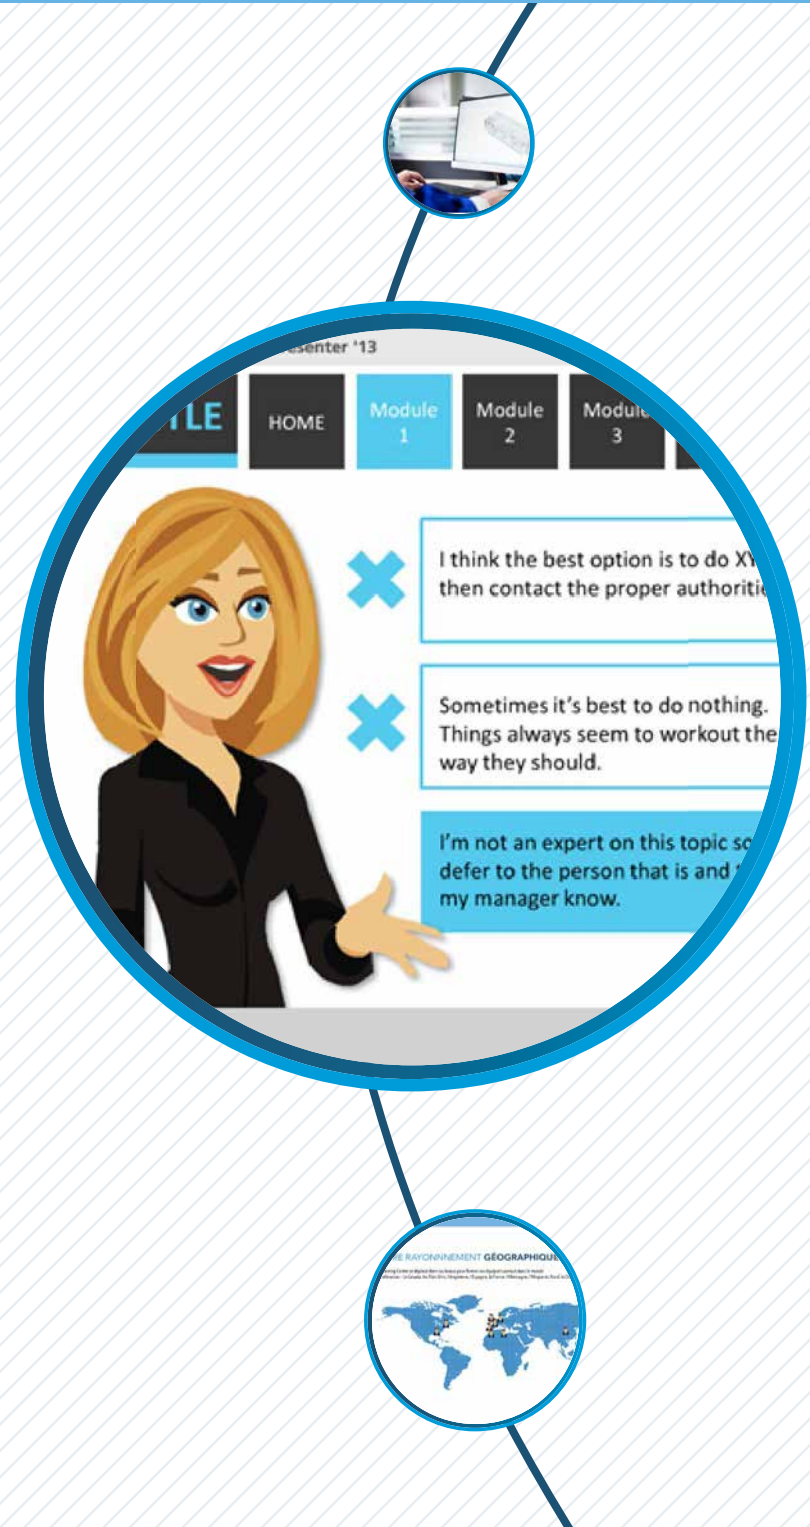

NEW

THE E-LEARNING PLATFORM

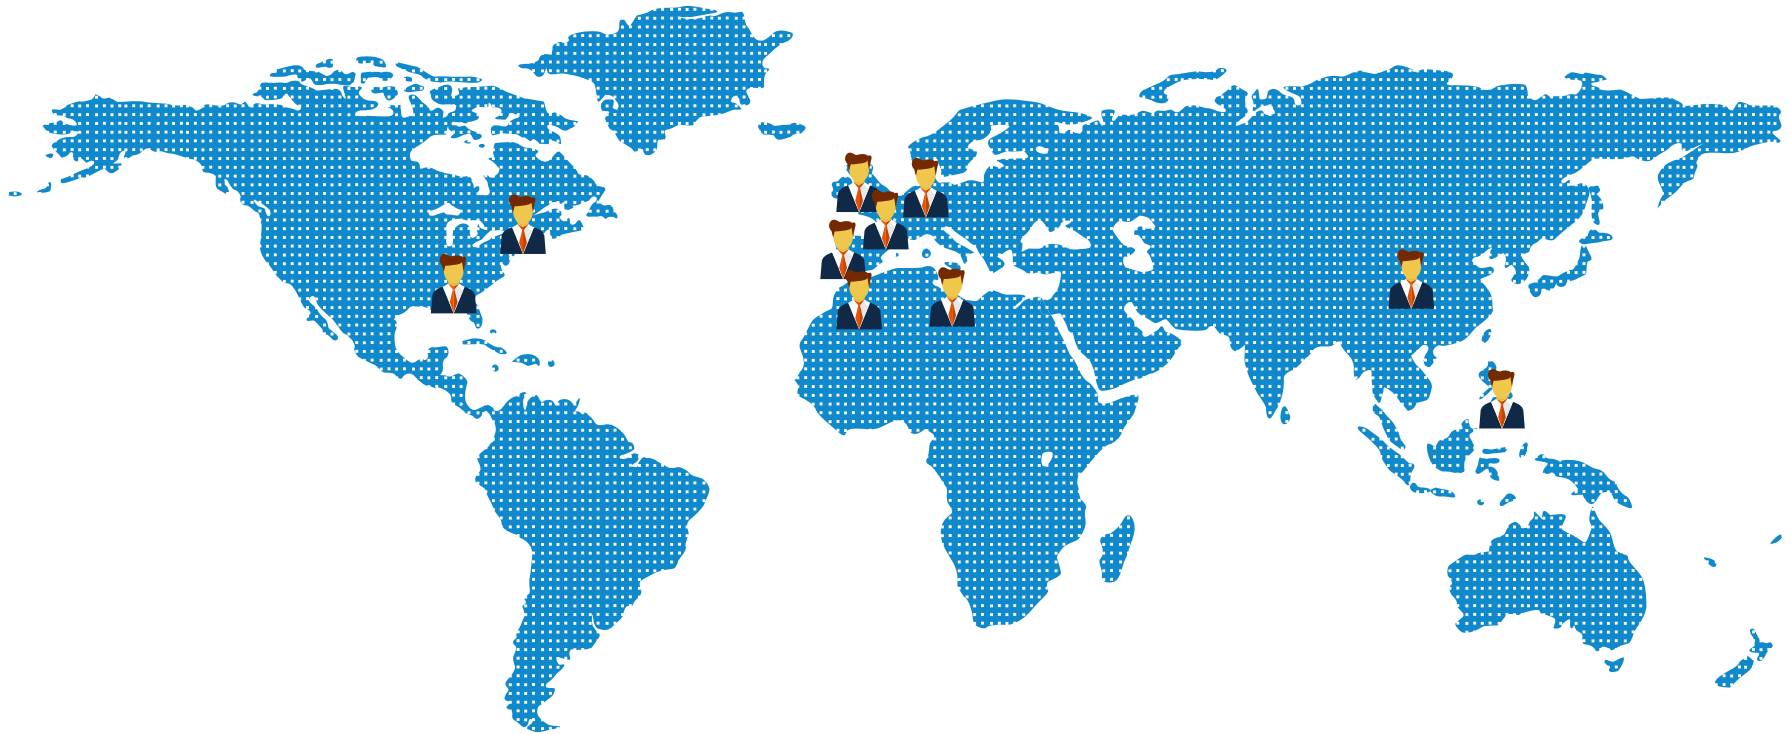

AAA Training Center also has an e-learning platform. Thereby we offer our team members the occasion to train at their own rhythm and at distance (at home, at the office...)

To train oneself, nothing's easier: they subscribe and connect to follow the training program. They are even followed by a coach. This platform is available 7 days a week and 24 hours a day.

OUR GEOGRAPHICAL PRESENCE

AAA Training Center goes to your offices to train your teams everywhere in the world.
Our references: Canada, the United-States, England, Spain, France, Germany, North Africa, China.

OUR TEAM

FRÉDÉRIC | Engineering training referent

- He has a long experience in the management and training of the ME Process Engineers for all specialties and programs.

ANTONIO | : Designer & trainer

- He has been working for 20 years in the aeronautic industry in manufacturing and assembly. For the past 8 years, he has been designing and conducting trainings for our aeronautical customers

SÉVERINE | : Designer & trainer

- 4 years of technical and logistical support on different programs. Our expert at technical English.

MICHEL | Concepteur & Formateur

- 8 ans préparateur et support technique, spécialisé dans le domaine électrique. Aujourd'hui, il conçoit et anime des formations au Training Center.

NATHALIE | Project manager

- 20 years' experience in the business development and marketing in innovative environments : mobile phone sector, multimedia....and IPE

LAURENT | Designer & trainer

- After 12 years working for the manufacturing engineering in manufacture and assembly , he is specialised in aerostructures. He has been working for AAA TC since 2010 and he mainly intervenes in designing and conducting training in the Western area and Maghreb.

ALEXANDRE | Designer & trainer

- 10 years as a ME Process Engineer, leader, team leader. He has been designing and conducting trainings at AAA TC for 4 years.

YOANN | Webmaster

- En charge du site internet A.A.A. Training Center, ainsi que de la plate-forme pédagogique.
